SETUP MANAGEMENT FOR KARTING

EVERY SETUP. EVERY SESSION. EVERY LAP.

Kart Connect is the one place for everything that happens to your kart: every setup change, every session, every lap time and the conditions it was set in. Built for drivers, mechanics and team managers who want to stop guessing and start knowing.

APP FOR THE WHOLE TEAM

LIVE ON THE WEB 1 DECEMBER 2026

Log your first session on launch day at kart-connect.com

SETUP & SESSIONS

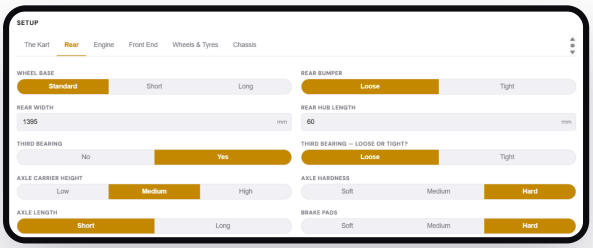

LOG IT ONCE. LEARN FROM IT FOREVER.

Every part of the kart, saved against the session it ran in, with the weather, the kit and your notes alongside it. When a lap goes quick, you know exactly why, and you can get straight back to it.

SETUP LOGGING

EVERY PART OF THE KART

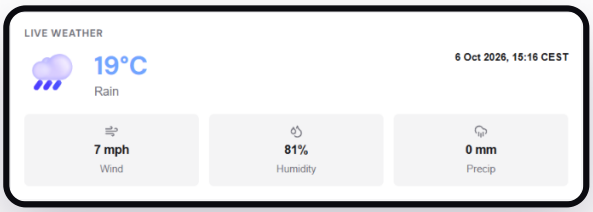

Rear, engine, front end, wheels and tyres, chassis. Tap-to-select options, so logging a session takes seconds, not minutes.

LIVE WEATHER

CONDITIONS, SAVED AUTOMATICALLY

One tap adds live temperature, humidity and conditions to the session, so you always know what the track was doing.

YOUR PROFILE

SET IT UP ONCE

Add your karts, chassis, engines, carbs and exhausts. Nickname them, rank them 1 to 5, and every new session fills itself in.

- Engines, carbs and exhausts ranked 1 to 5
- Engine 1, Carb 3, Exhaust 2: logged in three taps

TYRE PRESSURES

COLD. HOT. SORTED.

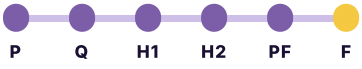

Record hot pressures after the run and get your next cold pressures, with stagger worked out per corner.

	FL	FR	RL	RR
COLD	9.00	9.00	9.00	9.00
HOT	12.62	13.40	12.18	13.04
NEXT	9.19 +0.19	8.41 −0.59	9.63 +0.63	8.77 −0.23

RACE WEEKENDS

PRACTICE TO FINAL

Every session of the weekend kept together, in order.

VOICE NOTES

GLOVES ON? JUST SAY IT

Speak your feedback straight into the session instead of typing between heats.

SESSION REPORTS

ONE PAGE PER SESSION

A clean PDF for every session: setup, conditions and lap times, ready to share.

DATA LOGGER

EVERY LOGGER. ONE SCREEN.

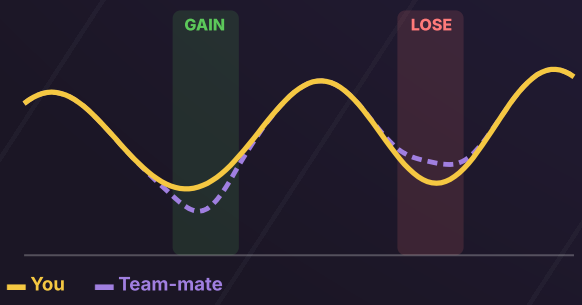

Drop in a CSV from any major logger brand and see two drivers' sessions side by side, even when they run different loggers. No more four brands and four apps that never talk to each other. (Times and traces shown are example data.)

AiM | Unipro | Alfano | Starlane

SPEED TRACE

SEE WHERE YOU GAIN. SEE WHERE YOU LOSE.

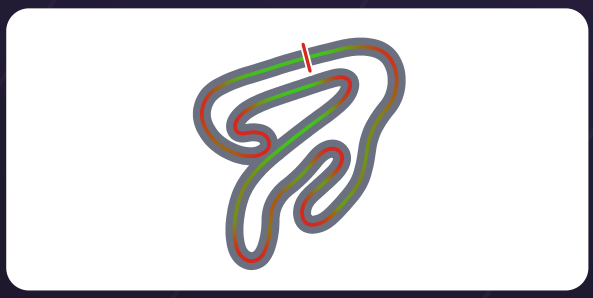

Speed against distance for every lap on one chart, against any driver.

GPS TRACK MAP

EVERY LINE. COLOUR-CODED.

Racing lines drawn from GPS, slow to fast, so the slow corners have nowhere to hide.

SECTOR ANALYSIS

THREE SECTORS. NOWHERE TO HIDE.

Every track auto-split into three sectors. Fix the red, keep the green.

S1	S2	S3
19.84	21.37	17.40
−0.08	+0.12	−0.21

LAP RANKING

EVERY LAP. RANKED.

Best lap highlighted, delta on every lap, and your theoretical best from your quickest sectors.

7	0:58.61	Best
9	0:58.74	+0.13
★	0:58.29	Theoretical best

COMING SOON

VIDEO VS VIDEO, WITH LIVE DELTA

Film on a GoPro Hero 7+ or DJI Osmo Action and your footage syncs to your logger data automatically. Two laps play side by side, with a live delta showing who's ahead, frame by frame.

BUILT FOR THE WHOLE TEAM

ONE APP. WHOLE TEAM.

DRIVER

Gives the feedback: what the kart's doing and what it needs.

MECHANIC

Logs the changes under instruction, saved against the session.

TEAM MANAGER

Sees everyone's changes across every driver and kart, and builds on what works.

LIVE SETUP

SCAN IT. SET IT. SENT.

Your mechanic scans a QR code, logs the setup for each session of the weekend, and it lands straight in your app.

TEAM LEADERBOARD

EVERY LAP TIME HAS A SETUP BEHIND IT

1	Driver 3	0:58.41	SETUP PDF
2	Driver 1	0:58.56	SETUP PDF
3	Driver 3	0:58.62	SETUP PDF

COMPARE SETUPS

SIDE BY SIDE

Pick any two sessions and see every change highlighted. Export it as a PDF for the team.

YOUR WAY

ANY LANGUAGE. ANY UNITS. ANY DEVICE.

8 languages. Bar or psi, °C or °F, kph or mph. Log it in the awning on your phone, review it on the sofa on your laptop.

PRIVATEER

For the solo racer

- Single driver, single kart
- All analysis features

TEAM

For small racing teams

- Up to 5 drivers
- Team manager view

PRO TEAM

For professional operations

- Up to 30 drivers
- Team-branded setup sheets
